

Hello, my name is Steven Dickinson. In 1979, a friend gave me his magic kit. I was twelve years old when I got bit by the bug of performing magic tricks thanks to receiving this kit. There is nothing like seeing the wonder in a person's face as they try to figure out how you did a trick.

In 1981 I put together my first magic show and performed it for the neighborhood kids. They loved it. Mrs Rymer was kind enough to take pictures and give me a copy of them. One of the pictures was a shot of my audience. In the photo was a boy holding his hand to his mouth in awe. That picture of the boy gave me the final shot in the arm to want to perform magic shows on a regular basis.

By the time I graduated from high school I was performing magic shows professionally. Since then, I've performed at birthday parties, trade shows, nursing homes and church events.

Sometime in my twenties I got caught in working a full time job and ended my professional magic days. I held on to my magic tricks and performed only for family and friends.

Now at the age of 43, I am performing professional magic shows again under my company name Zoomalata Magic.

There is nothing like the wonderful feeling you get when children and adults alike are mystified, joyful, and fully of joy & happiness after watching a Zoomalata Magic show or educational program.

Have a magical day,

Steven Dickinson  
Mr D the Magician  
Zoomalata Magic
